MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: National Intelligence Survey (NIS)
Production Schedule for FY 1970

REFERENCE: USIB-M-504, 11 April 1968

1. In accordance with the reference, the NIS Committee submits herewith the NIS Production Schedule for FY 1970.
2. After successful completion of two pilot units on Social Characteristics in FY 1969, ten units are included in this schedule and will provide more efficient and effective detailed sociological coverage in the NIS.
3. Manpower reductions in DIA, imposed by the Bureau of the Budget and specifically identified with the NIS Program, have significantly affected production planning. The immediate result is a reduction of 11 units programed for production in FY 1970 and a stretchout in the NIS revision cycles.
4. It should also be noted that there is a slight reduction in CIA's production of detailed economic sections, related to a partial phase-out of this work at the end of FY 1970.
5. Production units for FY 1970 total 364, a 5% reduction over that for FY 1969.
